### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, drawn to floating pressure tube arrangement, classified in class 188, subclass 315.
  - II. Claims 5-9, drawn to a two-piece piston rod, classified in class 188, subclass 322.22.
  - III. Claims 10-27, drawn to biasing member , classified in class 188, subclass 276.

2. The inventions are distinct, each from the other because:

Because these inventions are distinct, because the inventions have acquired a separate status in the art as shown by their different classification and because the fields of search for the groups are different, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Should applicant elect the invention of Group III for prosecution, applicant is required to further elect between the patentably distinct species as set forth below:

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A: Figures 6;

Species B: Figures 7 ;

Species C: Figures 8 ;

Species D: Figures 9.

Species E: Figures 10;

Species F: Figures 11;

Species G: Figures 12;

Species H: Figures 13;

Species I: Figures 14;

Species J: Figures 15;

Species K: Figures 16;

Species L: Figures 17;

Species M: Figures 18;

Species N: Figures 19.

4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 3683

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant should note that the examiner reserves the option of requiring restriction and/or election, in due course, pursuant to MPEP 821.03, MPEP 811, etc., based on applicant's response to this office action. Applicant should note that the amount of time allotted for the examiner to examine an application is limited.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas C. Butler whose telephone number is 703-308-2575. The examiner can normally be reached on m-f 5:30 am to 2pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
